THE 49th HARRY M. SPENCE
VISITING PROFESSOR CONFERENCE
MARCH 18-21, 2012

GUEST PROFESSOR
WILLIAM D. STEERS, M.D., FACS
HOVEY DABNEY PROFESSOR OF UROLOGY
DEPARTMENT OF UROLOGY
UNIVERSITY OF VIRGINIA
Harry M. Spence, M.D. was an innovative urologist and a renowned clinician and teacher, internationally known for his skill in directing formal and informal urologic conferences. Part of the legacy he left at the University of Texas Southwestern Medical Center was to establish one of the country’s first Visiting Professor Programs in Urology, which formally began 1963 with Howard Hanley, M.D. UTSW has hosted many of the world leaders in urology through this program.

A unique aspect of the program has been the inclusion of visiting residents from other prominent training programs in America. Providing diverse expertise and viewpoints, these visiting residents contribute to an invaluable experience for all, and the program has spawned many lifelong friendships. In 1988, we were pleased for the first time to invite back to Dallas a former visiting resident, Dr. Jerome Ritchie from Harvard, as the Spence Visiting Professor.
William D. Steers, M.D. is the 49th Harry M. Spence Visiting Professor in Urology at UT Southwestern Medical Center. Dr. Steers is the Hovey Dabney Professor of Urology at University of Virginia. Dr. Steers received his medical degree in 1980 from the Medical College of Ohio after receiving a degree in Chemical Engineering from Cornell University. After a residency at the University of Texas and M.D. Anderson Hospital, Dr. Steers completed a fellowship in Neurobiology and Pharmacology at the University of Pittsburgh. He has been a faculty member at the University of Virginia since 1988 and became Chair of the Department of Urology in 1995 and awarded the Hovey Dabney Professorship in 2003 and became the Paul Mellon Professor of Urology in 2010. Dr. Steers is Editor of the Journal of Urology. He was President of the American Board of Urology in 2010 and a Director on the American Board of Obstetrics and Gynecology. His honors include annual listing in America’s Top Doctors and Best Doctors in America. Men’s health Magazine has named Dr. Steers one of the top 15 Best Doctors for Men in the United States. He has received the American Urologic Association’s Gold Cystoscope Award for contributions to Urology and the Dornier Innovative Research Award as well as numerous other awards from clinical and scientific societies. In 2011 Dr. Steers was awarded the Hugh Hampton Young award for advancing knowledge of genitourinary disease. He has lectured and performed surgery throughout the world and has been elected to numerous scientific/professional societies, including the Physiological Society of London, Clinical Society, and American Association of Genitourinary Surgeons. Dr. Steers also served as President of the Society for Basic Urologic Research. With over 300 basic research and clinical publications, Dr. Steer’s diverse clinical interests span urinary incontinence, BPH, neurogenic bladder and robotic surgery for prostate cancer. He is known as an expert in the complications of prostate cancer treatments (incontinence and impotence).

Dr. Steers is a member of the FDA’s Reproductive Medicine Advisory Panel and chaired the NIH’s Urinary Incontinence as well as Interstitial Cystitis Clinical Trials groups. He has been Principal Investigator on numerous NIH grants including NIDDKs’ O’Brien Research Center. His team has been pivotal in numerous clinical trials for incontinence and erectile dysfunction. Dr. Steers was a principal investigator on the original clinical trials on the use of Viagra for erectile dysfunction. Dr. Steers was President of the University of Virginia physician’s practice plan (Health Services Foundation) until 2009 and has chaired or served on numerous University and national committees. In 2004, Dr. Steers initiated the Men’s 4 Miler for Prostate Cancer. Recent efforts have focused on establishing a Men’s Health and Performance Institute. He and his wife tend Three Notched Vineyard in Albemarle County and produce Well Hung Wines in the Monticello Appellation of Virginia.
